July 2024 (including VAT)

 **GERMANY**
SINCE 1925

BLANCO UNIT
drink. prep. clean.

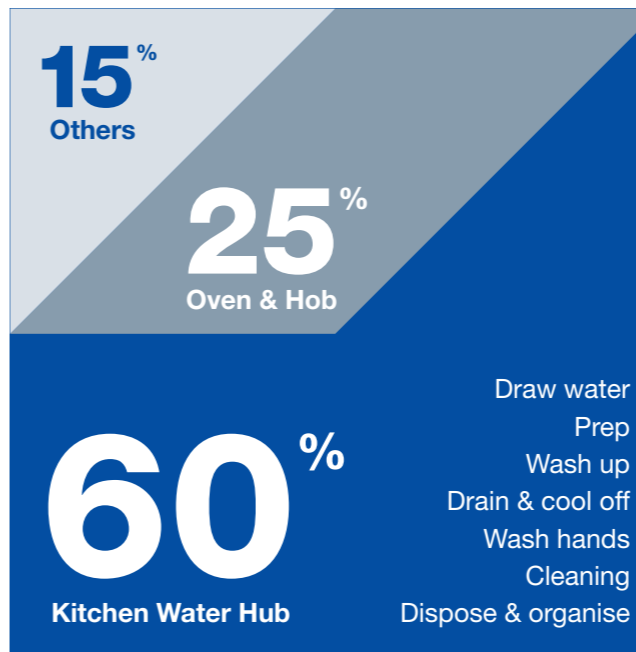

WHAT IS THE BLANCO UNIT?

Everything consumers need for their kitchen life and lifestyle, all in one place.

Did you know that we spend more than half of our time in the kitchen using the sink, tap and waste area? Which is why BLANCO focuses on improving how consumers can use this space. Adding intelligent features, introducing new designs and innovative materials to make kitchen life easier, everyday.

Tap: BLANCO MAX II in PVD steel
Sink: BLANCO SONA 6 S in SILGRANIT black
Waste: BLANCO BOTTON II 30/2, BLANCO FWD LITE

Where we spend our time in the kitchen in the UK

A PERFECT COMBINATION.

We spend about 60% of our time in the kitchen at the sink. It's where we fill our glasses, prepare food, rinse dishes, get rid of food waste, store cleaning products and separate the recycling. So it's important to ensure that things happen quickly and efficiently here. Having everything consumers need within easy reach and working together smoothly is key.

Sinks, taps and waste management systems are the most commonly used items in the kitchen. However, they are rarely given the consideration during planning that they deserve. The BLANCO UNIT will change that, when seamlessly combining BLANCO's premium products together, creating a multi-functional kitchen hub.

With the BLANCO UNIT daily cooking, food preparation and cleaning become simply easy, saving consumers space, energy and time, making those essential daily tasks an absolute breeze.

DRINK. PREP. CLEAN.

With the BLANCO UNIT you can create the perfect place to drink, prep and clean, that fits consumers style and your lifestyle. Day-to-day drink making, food preparation and cleaning now take place at a sophisticated sink area, combining all three tasks to perfection. Vegetables are peeled, washed and off-cuts disposed of in just a few simple movements. Tea made simple with a boiling water tap, cool drinks created with pure filtered water and life made easier with features including flexible or pull-out sprays.

The space under the sink, that no-go-area of chaotic (but important) storage becomes perfectly tailored with an integrated waste, in-cabinet organisation or food waste disposer.

All of this with millimetre precision, premium quality and ingenious ideas to make kitchen life easier everyday.

And within this brochure we will be showcasing how the BLANCO UNIT can fit seamlessly and stylishly within any kitchen design you choose.

WHY CHOOSE BLANCO?

BLANCO are the experts: German engineering since 1925.

There are many reasons to choose BLANCO as a partner, below are just a few:

- BLANCO has been accredited to ISO 9001:2015. and is regularly audited.
- BLANCO's environmental procedure compliance is regularly checked by the EC Commission Eco Audit.
- Sinks feature a low maintenance, easy-clean finish.
- All stainless steel sinks have a 25 year warranty.
- Chrome standard mixer taps carry a 5 year warranty.
- Silgranit® sinks carry a 25 year warranty.

Sink: BLANCO TIPO 45 S in stainless steel
Tap: BLANCO MILI in chrome

GERMANY
SINCE 1925

As a German company, founded nearly a century ago, we are among the world's leading manufacturers of kitchen taps, sinks, integrated waste and organisation systems.

We are passionate about the heart of your kitchen, the sink-space is the hub, where tasks need to run smoothly and efficiently. It's the most important place in the kitchen, and our many years of experience in cutting-edge technology can make it even better.

SINKS AND TAPS EXPLAINED.

BLANCO makes kitchen design and installation easy.

Tap Range

- The WRAS logo within this document identifies a tap as being WRAS approved (Water Regulations Advisory Scheme). Please check WRAS approval process with your Regional Sales Manager to ensure there have been no changes to WRAS approved products since publishing.
- BLANCO kitchen taps combine international design with German engineering to deliver the very best in quality.

Sink Style Options

- **Inset:** The frame of an inset sink sits on top of the work surface. These sinks are compatible with any work surface, including laminate worktops. 
- **Undermount:** An undermount sink is installed underneath the worktop, only compatible with solid surface worktops such as granite or solid wood. 

Undermount Sinks Range

- All BLANCO sinks have flat unbowed rims for easy fixing with bonding adhesives.
- Multi-bowls are welded construction to ensure stability.
- Mechanical fixings are provided to ensure the sink is safe when weight is added.

Inset Sinks

- The clip rails on BLANCO sinks are either fastened by laser welding or machine presses to ensure no 'dimpling' on the surface of the sink.
- Standard sink clips supplied with each sink are suitable for 30mm or 40mm worktops. Smaller sinks clips are available for 20mm worktops.
- BLANCO stainless steel sinks are always a 18/10 grade. This represents the addition of chrome and nickel to the steel for guaranteed best performance, corrosion resistance and durability.
- The minimum cabinet size is detailed with each sink. If the sink is positioned at the end of a run of units use a larger sized unit.

Softline corners ensure no jagged or dangerous edges.

Most of our stainless steel sinks have fixing clips that are factory fitted during the manufacturing process.

BLANCO sinks have a totally unique water seal that dramatically cuts fitting time and eliminates the risk of water ingress.

The DINAS range is supplied with an alternate seal method for flexibility.

BLANCO SILGRANIT®.

Undermount bowls.

Sink: BLANCO SUBLINE 500-U in SILGRANIT volcano grey
Tap: drink.hot EVOL-S Pro 4-in-1, black matt

Tap pressures - Gravity systems

Maximum/minimum pressure requirements for average flow rates are quoted in bar. Where 'head' is indicated (vertical height from the tap to the underside of the cold water storage tank) use as an approximate guide only. The conversion to 'head' is based on the assumption that the tap is fitted directly below the storage tank. Long pipe runs across the property from storage to tap may result in reduced pressure and poor hot water performance. Where minimum pressure is quoted, minimum performance should be expected, for optimum flow rates greater pressure will always be an advantage.

REFINED WATER FOR EVERY TASTE.

BLANCO CHOICE is the perfect water solution for every taste. Create endless possibilities in the kitchen with new BLANCO CHOICE Icona and CHOICE.All, the tap and drink.system that will put more control in your hands. Just one simple, compact installation and you can enjoy water your way with personalised pre-sets – the level of sparkle, the temperature, filtered or unfiltered, all tailored to individual taste buds. Maximum water enjoyment is created with the ideal combination of semi-professional kitchen tap BLANCO CHOICE Icona and water conditioning unit BLANCO CHOICE.All. Together they provide one solution for all types of water.

CHOICE Icona

The new CHOICE Icona semi-professional tap delivers cold and hot tap water plus filtered chilled, hot and sparkling water – all in one place. This provides one solution for all types of water, cutting out the need for multiple products.

- Precisely control the bubbles (for sparkling water), temperature, or quantity to dispense and save 4 personal settings conveniently via the BLANCO app
- Colour-coded LED rotary wheel with touch control (start/stop) to select filtered water options
- Separate outlet for refined filtered water and mixed water, from a combined rotating arm
- Two-jet shower for mixed water with magnet hold

CHOICE Icona plus CHOICE.All

CHOICE.All

Delivers filtered water that is chilled, still, sparkling or boiling hot

- Taste matters – 5 stage filtration process, outstanding protection against limescale and removes other particles that impair smell and taste
- Intuitive operation via touch display on the box or in the BLANCO app for customisation options
- The compact water conditioning system fits discreetly under the sink to maximise available storage space and occupies less than quarter of a standard cabinet size*
- Minimalist design in dark grey, matching BLANCO sink cabinet organisers
- Includes a CO₂ cartridge and a filter (Soft S) and a cleaning kit

BLANCO FOOD WASTE DISPOSERS.

A SMART ADDITION TO YOUR BLANCO UNIT.

Using a BLANCO Food Waste Disposer unit to grind down and flush away unwanted leftover food waste has a wealth of benefits to you, your home and to the environment.

- Reduces mess
- Improves kitchen hygiene
- No odours from stored food waste
- Added food prep convenience
- Saves time cleaning up
- Safe and easy to use

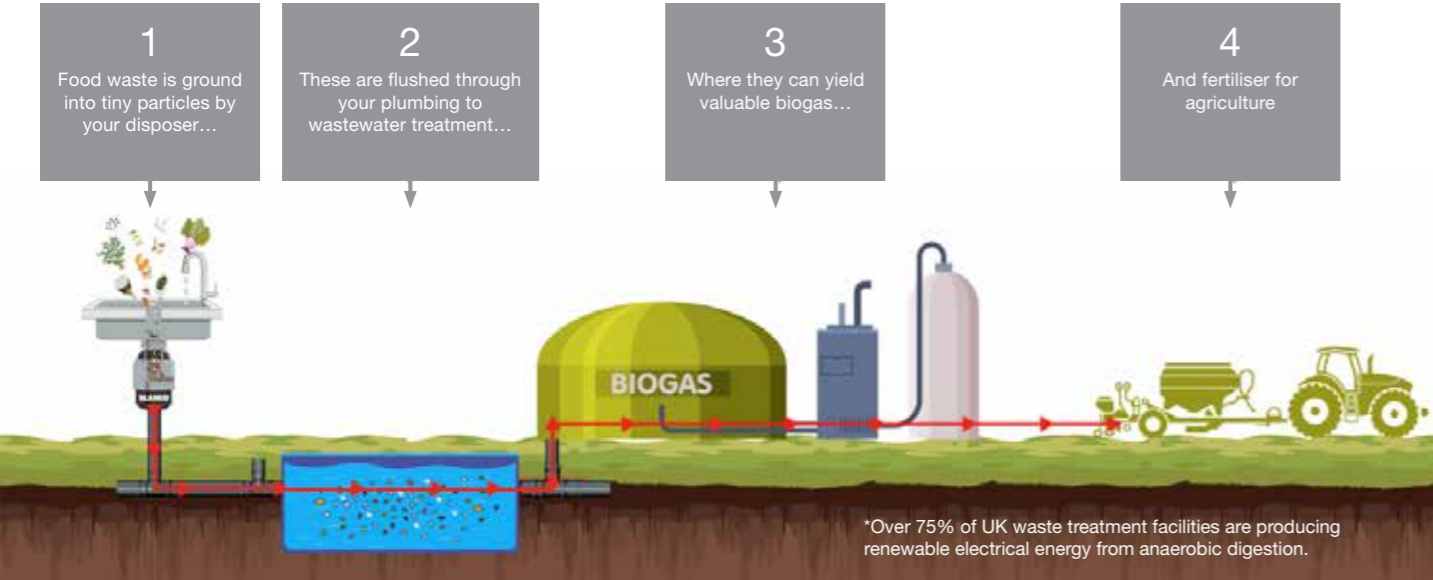

The environment benefits because less food waste ends up in landfill sites, it is estimated that 60% of household waste is from food preparation and leftovers. Ground down food waste from disposers like the BLANCO FWD range can also be converted into soil conditioner at water treatment plants.

WHY CHOOSE A BLANCO FWD?

A BLANCO FWD is designed to fit conveniently to the sink waste, located in the unit below the sink, creating the perfect kitchen hub at the heart of your home.

- Optimal interface management for BLANCO sinks and bowls
- High quality and powerful AC induction motor
- Dishwasher connection
- Automatic shutdown function
- Easy to install thanks to its 3 bolt system
- Grinding components made of stainless steel
- Overload protection
- Continuous feed
- Warranty of 3 years

HOW YOUR FWD GENERATES GREEN POWER*

THE BLANCO FWD RANGE IN MAX, MEDIUM AND LITE FITS ALL BLANCO SINKS AND BOWLS.
